With reference to: Bilateral exchange of aerosol measurement data between the Republic of Hungary and the Slovak Republic

Dear Mr. Metke,

Referring to the intention of the Slovak Republic and the Republic of Hungary concerning the exchange of radiological measurement data we would like to provide the following clarification:

In the spirit of regional cooperation in the field of nuclear or radiological emergency preparedness the Austrian Ministry of Agriculture, Forestry, Environment and Water Management supports any plans for a bilateral exchange of measurement data between the Republic of Hungary and the Slovak Republic. In particular, we will not raise any objections against the exchange of measurement data from the aerosol measurement stations Gerjen in the Republic of Hungary and Bohunice in the Slovak Republic.

The Austrian Ministry of Agriculture, Forestry, Environment and Water Management avails itself of this opportunity of assuring the Nuclear Regulatory Authority of the Slovak Republic of its highest consideration.

Best regards,

On behalf of the Federal Minister

Dr. Viktor Karg
