Subject: Basic Technical Characteristics

Dear Mr. Jirsa, Head of Unit,

With reference to the Article No. 4 of the EC Directive 302/2005 and on behalf of Slovenských elektrární, a.s, 3.& 4. Unit NPP Mochovce let me to provide for the EC technical report BTC (Basic Technical Characteristics) for the construction Unit 3&4 NPP Mochovce (Material Ballance Area WSXN). Furthermore, let me to inform you that planned date to receipt nuclear material for Unit. 3 is preliminary set up on September; 8 2017.

Following what is aforementioned, I would like to ask you to commence the installation EC and IAEA instruments and equipment at beginning of next year, i.e. January 2017. The reason to start such installation works is due to the timing advance and possible open issues that cause delay of the physical realization such equipment and instruments.

Yours sincerely,

Slovenské elektrárne, a.s.
